# Global Partnership on Nutrient Management (GPNM) Proceedings of the 8<sup>th</sup> Steering Committee meeting

September 26th 2016

**Teleconference** 

# Overview

The Global Partnership on Nutrient Management (GPNM) was launched in 2009 to address the global challenges faced by the mismanagement of nutrients and nutrient over-enrichment. It is a global partnership of governments, scientists, policy makers, private sector, NGOs and international organizations. It responds to the 'nutrient challenge' - how to reduce the amount of excess nutrients in the global environment consistent with global development. The GPNM reflects a need for strategic, global advocacy to trigger governments and stakeholders in moving towards more efficient and effective nitrogen and phosphorous use and lower losses associated with human activities. It provides a platform for governments, UN agencies, scientists and the private sector to forge a common agenda, mainstreaming best practices and integrated assessments, so that policy and investment responses/options are effectively 'nutrient proofed'. The GPNM also provides a space where countries and other stakeholders can forge more co-operative work across the variety of international and regional fora and agencies dealing with nutrients, including the importance of impact assessment work. The work of the GPNM is advanced by a Steering Committee, a sub-set of the Partnership members and is supported by the GPA Unit of the Marine and Coastal Ecosystems Branch of the Division of Environmental Policy Implementation of UNEP, which serves as the Secretariat to the Steering Committee.

The 8<sup>th</sup> meeting of GPNM Steering Committee was convened on 26<sup>th</sup> September 2016 following the convening the 7<sup>th</sup> Project Steering Committee (PSC) meeting of the GEF-Global Nutrient Cycling Project virtually. The meeting focused on updates on recent work of GPNM Task Teams, updating progress in the development of the Toolbox, development of publication materials, and completion of the new GPNM website and announcement of the new GPNM Chair.

# Participants:

Andrew Hudson United Nations Development Programme (UNDP)
 Scott Angle International Fertilizer Development Center

3. Arnoud Passenier Value Chains Sustainable Innovations, Ministry of Environment,

Netherlands

Charles Swain
 GPNM Secretariat, UNEP/GPA
 Christopher Cox
 GPNM Secretariat, UNEP/GPA
 Debra Turner
 Food and Agriculture Organization

7. Mark Sutton Environmental Physicist Centre for Ecology & Hydrology

8. Milcah Ndegwa GPNM Secretariat, UNEP/GPA

9. Patrick Heffer International Fertilizer Industry Association

10. Ramesh Ramachandran Director of the National Centre for Sustainable Coastal Management

in the Ministry of Environment, Forest & Climate Change, India

11. Terry Roberts International Plant Nutrition Institute

# **GPNM 8<sup>th</sup> Steering Committee Meeting Proceedings**

# Welcome remarks and agenda review

Welcome Remarks: Ramachandran, Director, National Centre for Sustainable Coastal Management, Ministry of Environment, Forest & Climate Change, India and GPNM Chair

<u>Ramachandran</u> welcomed the Steering Committee members and thanked everyone for choosing to attend. He thanked members for all the support they are giving him as the new GPNM chair.

# **Preamble discussions**

<u>Passenier</u> suggested need for green deals to showcase recycling of nutrients, precision farming among others.

<u>Heffer</u> pointed out the need to engage more partners in food industry, farmers and many more.

# Action items arising from the 6th Steering Committee meeting

|   | Decision for action   | Lead responsibility                                   | By When         | Update   |
|---|---|---|-----------------|--|
|   | GEF-GNC Project   |   |                 |  |
| 1 | Steering Committee members to submit bios for the website   | Secretariat (Project<br>Manager)                      | ASAP            | Need profiles from Debra, Roland,<br>Mark, Fusao, Chuck.   |
| 2 | Consult with Isabelle Vanderbeck on the format for the close-out conference and the final steering committee meeting.   | Secretariat (Project<br>Manager)                      | ASAP            | Discussed to have a one day close-<br>out conference co-joined with<br>GLOC-3 in May 2017, Indonesia<br>since many Steering Committee<br>members will be present. Agenda<br>will be established.                         |
| 3 | Establish a sub-committee determine options for raising resources for the internal UNEP project   | GPNM Chair  | ASAP            | Responsibility will be with Ramesh to guide and advance setting up the sub-committee. Arnoud has a number of contacts that can assist. Patrick can assist with the agri food chain (farmers and possibly food industry). |
| 4 | Look at the project budget and advise on whether a publication on phosphorus can be produced (along lines of Our Nutrient World). Draft a concept note/proposal and consider approach to the Government of the Netherlands for funding (linked to the Phosphorus Task | Phosphorus Task<br>team (led by<br>Passenier, Sutton) | Next<br>Meeting | CEH have prepared a proposal and submitted to the UK government for a grant. Phosphorus fact sheet has been prepared for comment.  |

**Commented [DIS1]:** We missed discussing the items from the 7<sup>th</sup> meeting but I think they should also be combined?

# **Update on GEF-INMS Project development**

#### Mark Sutton, Centre for Ecology and Hydrology

<u>Sutton</u> mentioned that the INMS paper (898 pages) was submitted and they received comments from GEF which they have so far addressed. GEF is in the process of awarding INMS \$ 6 Million for duration 2017-2020. GEF is keen to support Nitrogen policy Arena at national level. Various demonstrations activities are planned in United States and Europe in effort to advocate initiatives on Phosphorus and Nitrogen.

#### Intervention

<u>Heffer</u> asked what is the objective of International Nitrogen Initiative Conference in Australia? Resp. Sutton it is mapping the stakeholders on different roles of INMS projects.

# **GPNM** task team updates

# A. Policy

- There was reported no action from Sasha and members suggested scheduling teleconference with the team.
- <u>Sutton, Passenier</u> and <u>Tuner</u> volunteered to join the team to help in preparation of IGR-4 and reflect on UNEA-2 outcomes.
- <u>Ramachandran</u> mentioned that they are launching another large coastal ecosystem health report in India which can be used as a policy document.

# B. Nutrient Use Efficiency (NUE)

- Roberts mentioned that the team has been inactive since production of NUE position paper. The paper attracted attention in many forums that it was presented. Hence, the Steering Committee needs to guide on the next steps for the task team.
- <u>Sutton</u> highlighted that there are INMS activities that links to NUE and they can be discussed during INI conference in Australia.

# Discussions

 $\underline{\text{Cox}}$  mentioned that a budget is allocated to support members who will be interested to attend.

<u>Heffer</u> mentioned that in December there will be another meeting in Kampala that He will be attending in December 2016.

<u>Passenier</u> suggested the meeting to be pushed early next year and involve European phosphorus platform to discuss phosphorus use efficiency. Resp. <u>Sutton</u> suggested having the Steering Committee during IGR-4 once the dates are confirmed.

<u>Roberts</u> suggested a joint elaborate discussion with the Phosphorus task team and Nutrients Use Efficiency team to reflect on the way forward. He recommended <u>Tom Brusella</u> and <u>Tuner</u> to join in this discussion.

<u>Roberts</u> and <u>Passenier</u> agreed to develop agenda for the meeting suggested for early 2017 within the 1<sup>st</sup> quarter.

# C. Partnerships – proposal for GNC Project closeout conference; update on new partners; Caribbean Platform resource mobilization

<u>Cox</u> congratulated GPNM for the award from USDA of 245 USD to carry out work in Jamaica and Costa Rica. The project will be implemented in collaboration with UNEP Caribbean office. He encouraged members that we need to raise over 1 million dollar to support GPNM work.

# D. Toolbox – planned training, Manila, Nov 2016; development of the MOOC on nutrient management

<u>Cox:</u> stated that UNEP has approached various regional offices to get candidates for training. We expect a small class of trainee 10-15 to begin with.

<u>Cox:</u> highlighted that Concordia University has produced source book and it is in process of getting relevant case studies to add to the study. Members are requested to provide interesting case studies. <u>Ramachandran</u> mentioned that he will send one case study from India and <u>Hudson</u> to send as well.

#### **Discussion points:**

Ramachandran: How many days of training? Resp: Cox: a week.

# E. Phosphorus - incl. update on P Summit

<u>Heffer</u> mentioned that he will be sending report of the phosphorus summit this week.

<u>Arnoud:</u> There is agreement on the phosphorous indicator but not much capacity or money to do the work. Need to have a common vision to potentially start with a Future in P stewardship? In Edinburgh there were 4 pillars of science that could be enhanced but no funding to do the research i.e. something similar to the INMS program, such as GEF funding for P. The task team needs to be realistic on what they

can achieve as they are more of a brainstorming team, but can provide scope to a GEF project for example. Currently a disagreement in how to measure losses in phosphorous so the task team could have the debate and come to a consensus like there is with nitrogen.

<u>Chris:</u> little appetite in the GEF for global initiatives, need to look areas that we know we have issues with phosphorous mgt and areas for potential upscaling. Need to define in INMS what we haven't done but ensure that there are on ground benefits.

#### F. Communications - update on website

<u>Swain:</u> mentioned that they have been working closely with <u>Bleeker</u> to populate the new website. Members need to send their passport photo and profiles for upload. Website launch is planned for late 2017. <u>Cox:</u> stated that after discussions with <u>Vanderbeck</u> most of the articles and journals may be converted to policy documents. Members also need to consider hosting GPNM website in their organizations. <u>Ramachandran:</u> is it not hosted by UNEP? Resp: <u>Cox:</u> No, it is currently hosted by ECN and the contract expires in December hence the need to have another organization to host.

# Proposal for new position of GPNM Vice-Chair

# Patrick Heffer, International Fertilizer Industry Association

<u>Heffer</u> mentioned that the last Steering Committee agreed to have a Vice Chair. The Vice Chair will replace the Chair if the Chair leaves office before/after 24 months of his/her term; and Chair should assist/represent the Chair when not available. Principles have been drafted and will be circulated to the members to get consensus before nominations. It was agreed that rotation should rotate between Economic Co-operation and Development (OECD) and non-Economic Co-operation and Development (OECD).

#### **Discussion points:**

<u>Ramachandran:</u> is it allowed to take someone from any field? Resp: <u>Cox:</u> it should be government vs non-government.

# **GPNM Operational Framework development**

# Christopher Cox, UNEP

<u>Cox</u>: mentioned that the GPNM Operational Framework known as 'GPNM Charter' has been circulated to all members for their feedback.

<u>Hudson</u> mentioned that if possible it would be good to tag other resolutions that have been passed. Heffer suggested having a page with GPNM profile to help in recruiting more partners.

# Proposal for publications procedure

#### **Christopher Cox, UNEP**

<u>Cox</u>: mentioned that the draft was developed and circulated to members. Some members have given their ideas however, we would ask everyone to have a look at it.

#### Discussion points:

<u>Scott:</u> asked what is the percentage of the members who have accepted? Resp: <u>Cox:</u> we have not identified since majority are yet to give feedback. <u>Ramachandran:</u> suggested we set timeline on which all should have given feedback?

# Update on GPA's Inter-Governmental Review (IGR-4)

#### **Christopher Cox, UNEP**

<u>Cox</u>: mentioned that IGR-4 will be held in Indonesia and suggested dates are the last week of May (29) 2017. Indonesia government has agreed to host the IGR-4 together with GLOC-3.

# Planning for next GNC PSC Meeting – proposal for holding within INI Conference

# **Christopher Cox, UNEP**

The next SC meeting will likely be during INI Conference in December 3-7 2016 or IGR-4 in May 29 2016. This will depend on the number of steering committee members available to attend. Could potentially have a meeting all together in Europe around March next year.

# **Closing remarks**

<u>Ramachandran</u> thanked members for support and availability to attend this meeting. He encouraged members to look for any funding opportunity and to talk about GPNM in different forums they are involved in.

The meeting was closed at 6:30 PM (Nairobi time).

# **New Action Items**

|   | Action Items  | Lead responsibility  | Timeframe |
|---|---|----------------------|-----------|
|   | Policy  |                      |           |
| 1 | Secretariat to schedule a teleconference with policy task | Secretariat, Arnoud, | ASAP      |
|   | team.   | Mark, Debra          |           |
|   | Nutrient Use Efficiency                                   |                      |           |
| 2 | Determine which members will be attending the INI meeting | Secretariat          | ASAP      |
|   | in Melbourne.   |                      |           |
| 3 | Develop agenda for PTT and NUE meeting                    | Arnoud; Terry        | ASAP      |

|    | Action Items   | Lead responsibility    | Timeframe                     |
|----|--|------------------------|-------------------------------|
|    | Partnerships – proposal for GNC Project closeout   |                        |                               |
|    | conference; update on new partners; Caribbean Platform   |                        |                               |
|    | resource mobilization  |                        |                               |
| 4  | Secretariat: to circulate the project document submitted to  | Secretariat            | ASAP                          |
|    | USDA and minutes for the Caribbean meeting   |                        |                               |
|    | Toolbox – planned training, Manila, Nov 2016;  |                        |                               |
|    | development of the MOOC on nutrient management   |                        |                               |
| 5  | Secretariat to circulate the source book for GPNM members  | Secretariat            | ASAP                          |
| 6  | Secretariat has emphasized the need to assist with case studies Submit relevant case studies for the MOOC.         | GPNM members           | ASAP                          |
| 7  | Submit case study from India   | Ramesh                 | ASAP                          |
| 8  | Submit case study from USA   | Andrew                 | ASAP                          |
|    | Communications – update on website   |                        |                               |
| 9  | Secretariat: Draft policy brief  | Secretariat            | This week                     |
| 10 | Secretariat: circulate procedures for hosting GPNM website   | Secretariat, Ramesh    | ASAP                          |
|    | Proposal for new position of GPNM Vice-Chair   |                        |                               |
| 11 | Prepare and send out a TOR for the vice chair.   | Secretariat, committee | 15 <sup>th</sup> October 2016 |
|    | GPNM Operational Framework development   |                        |                               |
| 12 | GPNM members: to give feedback   | GPNM members           | 15 <sup>th</sup> October 2016 |
| 13 | Secretariat to draft GPNM profile that can be used to send   | Secretariat            | ASAP                          |
|    | to prospective members organisations.  |                        |                               |
|    | Proposal for publications procedure  |                        |                               |
| 14 | Prepare and send out a TOR for procedures for publications   | Secretariat            | ASAP                          |
|    | and also a version that be sent out to potential partners.   |                        |                               |
|    | With publications (policy and technical papers) with a GPNM  |                        |                               |
|    | logo there needs to be a certain level of consensus.   |                        |                               |
|    | IGR Preparation  |                        |                               |
| 15 | Investigate what actions countries are likely to agree to for  | Secretariat            | By next meeting               |
|    | assessment of what science is required.  |                        |                               |

| 16 | Arnoud travelling to Indonesia for a Climate mission in Nov. Looking to engage with government and needs contacts. | Secretariat            | ASAP                          |
|    | Arnound has reported that a new document on the circular   |                        |                               |
| 17 | economy will be published soon. Once translated to english,  | Arnoud                 | By next meeting               |
|    | to be distributed to the group.  |                        |                               |
|    | Also need to prepare a list of in kind contributions to the  |                        |                               |
| _  | gpnm program of work, and look at what type of work is   |                        |                               |
| 18 | consistent with the program of work, what products can be  | Secretariat            | By next meeting               |
|    | used to contribute information products and can be   |                        |                               |
|    | recorded as a contribution from the partner.   |                        |                               |
| 19 | Commence planning for the SC meeting in Europe around March 2017   | Secretariat            | By next meeting               |

# UNITED NATIONS ENVIRONMENT PROGRAMME

联合国环境规划署

# Agenda Global Partnership on Nutrient Management (GPNM) 8<sup>th</sup> Steering Committee meeting

Date: 26<sup>th</sup> September 2016 Venue: via teleconference

| Time<br>(EST) | Topic/Item  | Presenter        |
|---------------|---|------------------|
| 9:00 – 9:15   | Welcome remarks and Chair's review  | GPNM Chair       |
| 9:15 - 9:45   | Review of Minutes; June 2016 SC Meeting – Action Items  | GPNM Chair       |
| 10:00 – 10:15 | Update on GEF-INMS Project development  | Mark Sutton      |
| 10:15 - 10:45 | GPNM task team updates (5 minutes each)   |                  |
|               | • Policy  | Sasha Koo-Oshima |
|               | Nutrient Use Efficiency   | Terry Roberts    |
|               | <ul> <li>Partnerships – proposal for GNC Project closeout<br/>conference; update on new partners; Caribbean Platform<br/>resource mobilization</li> </ul> | Secretariat      |
|               | Toolbox – planned training, Manila, Nov 2016;     development of the MOOC on nutrient management  | Secretariat      |
|               | Phosphorus - incl. update on P Summit   | Arnoud Passenier |
|               | Communications – update on website  | Secretariat      |
| 10:45 - 11:00 | Proposal for new position of GPNM Vice-Chair  | Yuelai Lu        |
| 11:00 – 11:15 | GPNM Operational Framework development  | Secretariat      |
| 11:15 – 11:30 | Proposal for publications procedure   | Secretariat      |
| 11:30 – 11:45 | Update on GPA's Inter-Governmental Review   | Secretariat      |
| 11:45 – 12:00 | Planning for next GNC PSC Meeting – proposal for holding within INI Conference  | GPNM Chair       |
| 12:00 - 12:15 | Any other business  | GPNM Chair       |
|               | Closing remarks   | GPNM Chair       |
